

OKLAHOMA

CENTRAL IRREGULAR PLAINS ECOREGION

G1 and G2 Species Habitat Management Guidelines

INTRODUCTION

The Sustainable Forestry Initiative® (SFI) [2022 Standards](#) include requirements that promote and conserve Forests with Exceptional Conservation Value (FECV), which includes critically imperiled (G1) and imperiled (G2) species. This fact sheet summarizes the analysis of FECV habitat within this ecoregion and provides habitat management recommendations that would benefit species potentially found here.

HABITAT TYPES

- Hardwood Forest
- Pine Plantation
- Stream

HARDWOOD FOREST MANAGEMENT

- Protect known locations of G1/G2 Species
- Retain large diameter trees, stumps and logs

PINE PLANTATION MANAGEMENT

- Protect known locations of G1/G2 Species
- Retain a variety of species including hardwoods
- Leave woody debris from logging on the ground or pile into wildlife habitat piles
- Consider thinning to create gaps for shrub growth

STREAM MANAGEMENT

- Protect known locations of G1/G2 Species
- Maintain well vegetated riparian buffers
- Retain large diameter trees near streams and rivers
- Buffer streams, wetlands, springs, and headwater areas

Northern Long-eared Bat

Oklahoma Grass-pink

Neosho Mucket

All management recommendations assume that operators and land managers are following all applicable BMPs, laws, and regulations.

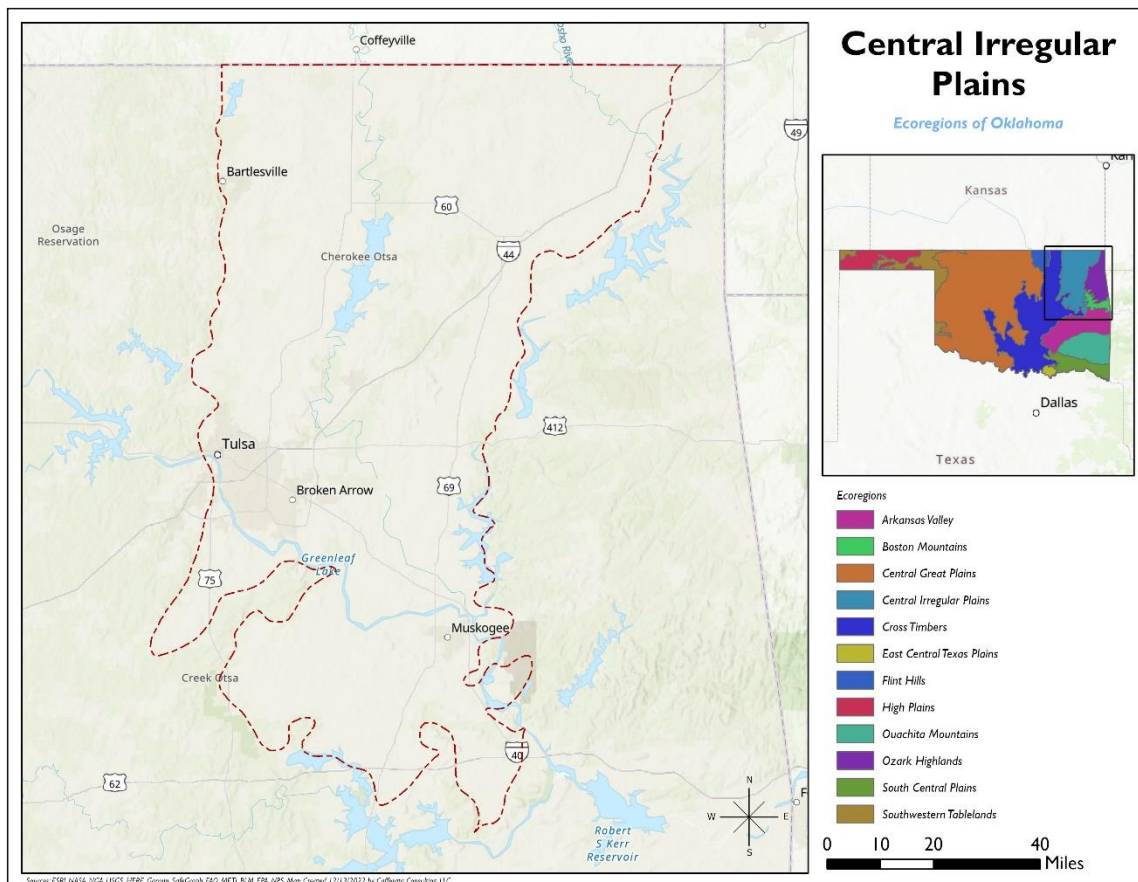

OKLAHOMA CENTRAL IRREGULAR PLAINS ECOREGION G1 and G2 Species Habitat Management Guidelines

SCIENTIFIC NAME	COMMON NAME	HABITAT	STATUS
<i>Myotis septentrionalis</i>	Northern Long-eared Bat	Hardwood Forest	G2G3
<i>Myotis septentrionalis</i>	Northern Long-eared Bat	Hardwood Forest	G2G3
<i>Calopogon oklahomensis</i>	Oklahoma Grass-pink	Pine Plantation**	G2
<i>Lampsilis rafinesqueana</i>	Neosho Mucket	Stream	G1
<i>Notropis girardi</i>	Arkansas River Shiner	Stream	G2
<i>Sagittaria ambigua</i>	Kansas Arrowhead	Stream	G2
<i>Noturus placidus</i>	Neosho Madtom	Stream	G2
<i>Alosa alabamiae</i>	Alabama Shad	Stream	G2G3

*species links provided when available

**Found rarely, but in a variety of habitat types including pine savannas, coastal prairies, open oak woodlands

All management recommendations assume that operators and land managers are following all applicable BMPs, laws, and regulations.
